SADBABY

WHITEPAPER

Babies can be born with various diseases. While these diseases are sometimes treatable, there are some diseases that cannot be cured. These diseases leave families of sick babies and children helpless due to the high cost of treatment. Many babies and children cannot be treated due to the high cost of treatment, and those who cannot be treated unfortunately lose their lives. As a matter of fact, it is possible to meet these expenses. With SADBABY TOKEN, you can be hope for sick babies and children.

SADBABY

Babies may born with various diseases. While these diseases are sometimes treatable, there are some that cannot be cured. Due to high treatment costs, these diseases make the families of sick babies and children helpless. Many infants and children cannot be treated because of high treatment costs so those who cannot be treated unfortunately may lose their lives. In deed, it is possible to meet these expenses. With SADBABY TOKEN, you can be a hope for sick babies and children.

SADBABY TOKEN belongs to the decentralized community that aims to make those who join its community of happy people happy. We welcome and embrace different perspectives to turn SADBABY TOKEN into the best community in crypto. It acts with the mission of making unhappy babies and children happy.
